COLOR — & WHAT EACH GROUP IS FOR

BACKGROUNDS

Page & card surfaces — warm beige

TEXT

Headlines, body, captions, small labels

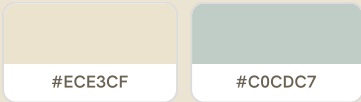

ACCENTS — USE SPARINGLY

Buttons, links, highlights, the “!” mark

CREAM

Text placed over dark photos

THE SYSTEM, ASSEMBLED

WHY NOW

Walk with us

The knowledge to heal has never left the
Earth. We only need to walk back and get
it.

Beige ground · Fraunces headline · terracotta accent · gold pill button · sage
eyebrow.

QUICK RULES

- Pair Fraunces (titles) with Spectral (body); Hanken Grotesk only for caps labels & buttons.
- The wordmark’s “!” is always terracotta #B0654A; the rest is ink.
- Buttons are pill-shaped; cards use a 20px corner radius.
- Gold & terracotta are accents — keep them small against the beige.
- Eyebrows: caps, wide tracking (~0.3em), in sage.
